## Why Cnam Paris is the best choice for your MBA

### Message from the Director

“

... Two decades ago the Cnam created the MBA “Manager d’Entreprise” programme to help professionals add a new dimension to their careers by capitalizing on their experience and know-how. Its main objective was to transform students into effective leaders.

While remaining faithful to its founding principle of encouraging professional transformation, the programme has been completely revamped in order to meet the needs and ambitions of managers in today’s business world. What we have created is an innovative MBA programme that delivers value to our students in multiple areas...”

Jean-Michel RAICOVITCH

Cnam

Associate Professor and MBA Director

Overseen by the French Ministry of Higher Education and Research, the Cnam is a unique public scientific, cultural and professional institution that is referred to as a “grand établissement” and considered to be among France’s top higher education establishments. Since 1794, it has had a tradition of innovation in research and teaching that is carried on today by a corps of professors and lecturers who are not only highly respected academics, but who also have rich professional experience.

Situated at the center of Europe, in the heart of Paris, the Cnam’s main campus is an exceptional backdrop for a diverse student body made up of people from different educational and professional backgrounds, ages and cultures.

The Cnam MBA experience is transformative and unforgettable, from its challenging and stimulating coursework, to its study trips in France and abroad, conferences and guest speakers, competitions and social life.

The Cnam provides a MBA programme with 3 formats: International (full time), Executive (part time) and Hybrid (online blended learning) delivered in France (Paris) and overseas. Five majors including Business Unit Management (or General Management), Project Management, Fashion Management, Entrepreneurship & Innovation Management and Insurance Management are offered to students. These programmes are designed for those aspiring to develop a career in an international business environment, to widen their professional horizons and to increase their leadership capacity.

The Cnam MBA promotes diversity to achieve a balanced mix of educational and professional backgrounds, age and cultures. The large number of nationalities (we have welcomed more than 40 different nationalities in the past 10 years) and the impressive degree of female participation further promote the variety of viewpoints and ideas voiced in discussions. All this happens in classes of small size, facilitating intensive interactions, as well as the transfer of knowledge and skills.

### Message from the Manager

... Though a MBA degree is reputed, it can never be a «magic stick» without your personal quality and efforts. That’s why, our MBA programme will not just try to give you a degree, but practical skills and different ways of thinking and personality.”

*... I found that the executive MBA part-time students that I was part of had seen the ups and downs of economic cycles.
